

# Dunkeld Heritage Trail

An unique opportunity to learn about the fascinating history of Dunkeld while enjoying a pleasant stroll through the beautiful town.

The Dunkeld Heritage Trail is a volunteer community project that connects us with the built environment and stories of the early 20th century.

In January 1944 fires destroyed one-third of Dunkeld's houses and businesses. At a time when many local residents were absent defending Australia in World War II, the fire caused devastating effects on the township.
